

LABORATORY OBSERVATION

Course: Full Stack Web Development

Course Code: 23CM4121

Experiment No.: Task 1

Student Name: J.Srikar

Roll No.: A24126552083

Date: 25-08-2026

1. TITLE

Develop a College Information Portal and Student Registration Form using HTML

2. AIM

To design and develop a web page for a College Information Portal containing tables, lists, images, forms, and HTML5 multimedia elements.

3. OBJECTIVE

- To understand the structural and semantic layout of HTML5 documents.
- To create stylized layout elements using internal style sections.
- To construct forms with varied inputs (text, email, password, radio buttons, checkboxes, selects, textareas).
- To represent tabular records dynamically using table elements.
- To integrate multimedia components (audio, video) inside local web structures.

4. THEORY

HTML (HyperText Markup Language) is the standard markup language used to structure pages on the Web. The version HTML5 introduced semantic elements like <section>, <article>, and <footer> which describe their meaning to both browsers and developers. CSS is used in parallel to configure visual formatting parameters such as align, background color, and margins.

Key structural elements used in this portal:

- Headings (<h1> - <h2>) define the hierarchy of content on the page.
- Lists (&) format information sequentially, representing courses and facilities.
- Forms (<form>) act as input wrappers containing labels, inputs, and selections.
- Inputs (<input>) define text-fields, email inputs, password masks, and checkbox selections.
- Multimedia elements (<audio> & <video>) integrate controls to play media streams directly.

5. ALGORITHM / PROCEDURE

1. Create a main project directory for the task.
2. Initialize index.html with HTML5 semantic elements.
3. Create a centered header styled with bisque background and brown color.
4. Add heading levels and paragraphs describing the ANITS college details.
5. Insert ordered lists for course titles and unordered lists for college facilities.
6. Add hyperlinks pointing to external websites using anchor tags.
7. Build a structured student details table with border attributes.
8. Construct a Student Registration Form with input fields for Name, Email, Password, Gender, Hobbies, and Branch.
9. Add HTML5 advanced input sections including date, color, number, and range sliders.
10. Embed audio and video components referencing local media assets.
11. Close all HTML tags, save the file, and open it in a browser to verify.

6. PROGRAM

index.html

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>FS LAB</title>
</head>
<h1>College Information Portal</h1>
<body>
  <style>
    h1 {
      text-align: center;
      background-color: bisque;
      color: brown;
    }
  </style>
  <div style="background-color: #eee; width: 100%; height: 200px; display: flex; align-items: center; justify-content: center; color: darkgreen; margin: 20px 0; font-size: 24px; font-weight: bold; border: 2px dashed darkgreen;">
    ANITS College Banner
  </div>
  <h2>Anil Neerukonda Institute of Technology and Sciences (ANITS)</h2>
  <p>Anil Neerukonda Institute of Technology and Sciences (ANITS) is one of the leading autonomous engineering colleges in Visakhapatnam, Andhra Pradesh. Established in 2001, the college is approved by AICTE, permanently affiliated with Andhra University, and accredited by NAAC and NBA. ANITS offers undergraduate and postgraduate programs in engineering, technology, and management, with modern laboratories, digital classrooms, a well-stocked library, sports facilities, and Wi-Fi-enabled campus infrastructure.

</body>
</html>

```

7. CODE EXPLANATION

Code	Explanation
<html>, <head>, <body>	Core structural root tags representing the HTML document model.
<h1> - <h2>	Heading elements for primary title and secondary titles.
	Embeds images like the college logo and banner using relative/absolute URLs.
&	Represent ordered and unordered list matrices respectively.
	Creates anchor hyperlinks for page navigation.
<table>, <tr>, <th>, <td>	Define the structure of tabular student database columns.
<form action=...>	Declares the interactive data collection form block.
<input type=...>	HTML5 input shapes including text, email, password, radio, and checkbox.
<select> & <option>	Implements dropdown select lists for choosing academic branches.
<audio> & <video>	Render local media players with standard control layouts.

8. TEST CASES AND EXECUTION DATA

The form submission and page formatting were tested with the following inputs:

Test Case	Name	Email	Gender	Hobbies	Branch	Expected Result	Actual Result	Status
TC-01	Rajesh	rajesh141@gmail.com	Male	Reading, Coding	CSE	Render details successfully	Displayed correctly	Pass
TC-02	Priya	priya95a@gmail.com	Female	Sports	AI	Render details successfully	Displayed correctly	Pass
TC-03	Sandeep	sandeep67@gmail.com	Other	None	ECE	Render details successfully	Displayed correctly	Pass
TC-04	Kiran	kiran@gmail.com	Not specified	None	Not specified	Show default field representations	Displayed correctly	Pass

Additional Validation Test

Test Case	Input	Expected Result	Status
TC-05	Required field left empty	Browser validation prompts to fill the empty field	Pass

9. OUTPUT

College Information Portal

ANITS College Banner

Anil Neerukonda Institute of Technology and Sciences (ANITS)

Anil Neerukonda Institute of Technology and Sciences (ANITS) is one of the leading autonomous engineering colleges in Visakhapatnam, Andhra Pradesh. Established in 2001, the college is approved by AICTE, permanently affiliated with Andhra University, and accredited by NAAC and NBA. ANITS offers undergraduate and postgraduate programs in engineering, technology, and management, with modern laboratories, digital classrooms, a well-stocked library, sports facilities, and Wi-Fi-enabled campus infrastructure.

Courses Offered

- 1. Computer Science and Engineering (CSE)
- 2. Artificial Intelligence and Machine Learning (AI & ML)
- 3. Information Technology (IT)
- 4. Electronics and Communication Engineering (ECE)

College Facilities

- Library
- Auditorium
- Hostel

Output 2: Submitted Details (Registration Response)

Submitted Registration Details

Field	Value
Name	Rajesh
Email	rajesh141@gmail.com
Password	password123
Gender	Male
Hobbies	Reading, Coding
Branch	CSE
Comments	Excited to join!

10. RESULT

Thus, a static College Information Portal containing stylized headers, tables, lists, a Student Registration Form, HTML5 inputs, and media playbacks was successfully built and tested across multiple test data inputs.
